Friendship Connection  
Social Networking for our kids...  

Syosset SEPTA started The Friendship Connection. We are trying to assist children who struggle with the ability to make friends by facilitating the introduction and meeting of peers who share similar interests and hobbies. By completing a short checklist of your child’s interests SEPTA will attempt to match your child with another child close in age with similar interests. The information will remain confidential and will only be shared with a potential match. We already made a few matches, but there are other kids who are waiting to be matched. Now is a great time to introduce your kids to new friends. The form is on page 3.
What Is SEPTA?

Syosset SEPTA is the Special Education Parent Teacher Association that serves Syosset School District’s children with disabilities, as well as their families. Our meetings and our membership are open to all parents regardless of whether your child is receiving special education services. We are a resource of people who are available to help parents and children by providing support, education, and advocacy.

To help our members stay informed about valuable resources, legislation, and relevant local events, we send out an email called SEPTA Connection. All emails sent out by SEPTA are sent “blind” and we NEVER share our email list with other persons or organizations. It remains strictly confidential. If you would like to receive emails, please provide us with your email address.

We encourage all parents to support our unit by becoming members. Your support allows us to provide excellent programs and scholarships for special education students.

We thank you for your support!

Friendship Connection is an avenue for our children to potentially make a friend within the SEPTA organization. By completing a quick checklist of interests of your child, SEPTA will try to match your child with another child close in age with similar interests. The information on the checklist will remain confidential and will only be shared with a potential match. SEPTA can not guarantee a match or can not guarantee that the friendship will work out. Friendship Connection is an attempt to assist children who may possess social awkwardness or shyness. The goal is to facilitate meeting a new friend. If SEPTA believes that there is an appropriate match, each person will be contacted by SEPTA, via email and the exchange of information (i.e. telephone number, email address, etc) will take place. Afterwards, it will be up to the two parents to decide to move forward. SEPTA’s job at that point will be complete. The checklist could be emailed to Lauren Cohen (LaurenC9999@aol.com) or it could be mailed to her at 12 Nome Drive, Woodbury, NY 11791.

Sibshops were a great success last year. You know how we can tell? The children who participated wanted to know why they have to wait a whole month before they get to participate again. We had fun, laughs and got to meet new friends. It was really a heartwarming experience for us to see!

Sponsored by Syosset SEPTA

Sibshops are pedal-to-the-metal celebrations of the many contributions made by brothers and sisters of kids with special needs.

Sibshops acknowledge that being the brother or sister of a person with special needs is for some a good thing, others a not-so-good thing, and for many, somewhere in-between. They reflect a belief that brothers and sisters have much to offer one another — if they are given a chance. Sibshops are a spirited mix of new games (designed to be unique, off-beat, and appealing to a wide ability range), new friends, and discussion activities. The Sibshop curriculum is used throughout the United States, Canada, England, Ireland, Iceland, Japan, New Zealand, Guatemala, Mexico, and Argentina.

Goals of Sibshops

1. To provide brothers and sisters of children with special needs an opportunity to meet other siblings in a relaxed, recreational setting.
2. To provide brothers and sisters with an opportunity to discuss common joys and concerns with other siblings.
3. To provide brothers and sisters with an opportunity to learn how others handle situations commonly experienced by siblings of children with special needs.
4. To provide brothers and sisters with an opportunity to learn more about the implications of their siblings' special needs
5. To provide parents and service providers with opportunities to learn more about common concerns of brothers and sisters.

If you are interested in having your child participate in or finding out more about Sibshops please contact Maria Ciminiello@mmcim@optonline.net

The first Workshop for this school year will be in October...more details to follow.

Fee is $5.00 per session.
